

programs for family members dealing with the difficult changes associated with Alzheimer's disease and memory loss.

Families are encouraged to participate in individualized care planning sessions and are welcomed to visit any time. Family members often stop by for meals, take residents home for a visit, or go on outings. Our professional and trained staff focus on health care, so family members can devote more time to emotional support and the loving attention that only they can give.

Educated Staff

Caring for those with Alzheimer's disease and dementia requires knowledge, experience, understanding and – above all – compassion. Staff at Twin Town Villa receive continuous training from some of the most skilled and experienced professionals providing memory care today. Compassion, combined with the positive attitudes of staff, drives the success of the program.

Live Well

We are exclusively dedicated to providing care for seniors living with Alzheimer's and other forms of dementia. Our community features bright, beautiful suites that are designed to be like home. We also feature a lovely outdoor courtyard where residents can breathe fresh air and take in the wonderful Minnesota seasons.

Today millions of older adults are living with memory loss. That means that millions of families and friends are watching loved ones become more confused and

Memories hold a connection to our past and a special link to our future.

For those with memory loss, comfort can be found in a fulfilling and loving atmosphere. Residents are encouraged to bring in plants, pictures, and other items from home to personalize their suite and help them connect to their past.

frustrated every day.

Our memory care community provides assistance for seniors with memory loss issues. This special residence is designed to care exclusively for residents with Alzheimer's Disease or other forms of memory impairments. Close supervision is provided 24 hours a day in a secure, friendly, residential atmosphere.

Health Related Services

One of the best advantages of living in our memory

care community is the service. Supportive services are available 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum dignity and independence for each resident and involves the resident's family, neighbors, and friends.

We take a forward look to how personal and health related services are offered to our residents. Because we understand that no two people are alike in their needs, we have created three levels of service to better serve our residents. With each level, residents needs are assessed by our Registered

Nurse and our care team to determine with the family which level best suits their needs. We take the time to get to know your family member as a person. Both personal and health related services are offered to our residents to help them stay as independent as possible, for as long as possible.

Family Participation

Our Community Life Coordinator organizes family picnics, parties and holiday gatherings. The Director of Resident Services, helps plan support
